5	I think more people will enjoy bird watching in the future. Websites and apps make it easier to look for and learn about birds. I have two questions about the boat. Do we need to make a reservation to ride it? How much does it cost to rent it?
6	Yes, I think so. First, children can learn to plan their own schedules. They will be able to decide bedtime according to daily needs, such as homework or plans with friends. Second, they can learn to control their actions. They need to be strong enough to stop activities and follow the bedtime rules they set for themselves.
